Carol Jaymes 10500 Crossings Drive

A number of things, once again I'm here because of the flooding across the street. I would like someone, when it's raining, to see where the water is going. I don't want to hear again about across the street from me, I know that story. I moved here in 2005 and there was no flooding. There was water that went across into Aurora Shores before the road was paved. It doesn't do that anymore. It's backing up and killing trees. Another issue is last year in the spring, cleaning, raking and the wildflowers come up. I cannot pull up the mess. You can get a chipper and clean it up. The longer those trees are sitting in the

water, they're dead. They're all going to die. I don't think the fire station – I'm very glad they're there and they've been good to me. I've talked to Stacey and I wanted Mr. Brubaker's first name –

Mayor Alonso stated it was Alan and his son's name is Ty. He owns the property.

Ms. Jaymes: I went down Glenwood yesterday and I'll be happy to help. Let's get people out and make a clean-up day and rake all the leaves and debris. Let's do something about cleaning up and making it look presentable. This is not very attractive right here and I've never seen anything planted. I'm happy to help if we get volunteers or city workers. The buildings across from the police station – let's get it painted. And the gazebo is – I'd like it taken down. Look at Aurora's and Macedonia's.

Mayor Alonso stated the gazebo is named after a lady.

Ms. Jaymes: Build a new one and name it after her again. I would be happy to help out with any efforts.

Mary Williams 10589 Florida Street

Like Mrs. Smalley said, we approved variances for two houses in Herrington and when I went over to look at the one in Jasmine, that's the area they already approved the water barrels. None of them are hooked up. The first ones approved, shouldn't they be using them?

Mayor Alonso stated they are waiting on two residents to put them all in. He will not issue Certificates of Occupancy until it gets done.

Mrs. Williams: The spout is close to the ground and the rain barrel is sitting to the side, what good does it do?

Al Williams 10589 Florida Street

I was a little upset when I received my water bill this month to discover that the fees are more than the water we used. It's going to 27 next year. I have a paper that says they're raising the rates every year and this rate is going up every year. It's sort of a disillusion because when they came here and their rates pretty well matched the rates we were charging as a flat rate and they most certainly weren't saying we're going to come back and ask you to pay all these fees on top of these water rates. They gave us a rate for our first unit and then a rate for (inaudible) thereafter, now we have a rate for a 6/10 of a unit and then a higher rate for anything above that and then a higher rate again and now fees on top of that. If you had to water your lawn, you couldn't afford to do it. It just seems to sneak up on you a little bit at a time. At the beginning of the year it was 21, I wouldn't have noticed it but December, January, February they used the rate for the year before and I was thinking I already calculated my water bill and it was more than I thought it was going to be. The other thing I'm wondering about, I know they repaired the waterline on Glenwood, how long will it take to have the concrete returned to that area?

Mayor Alonso replied he will probably have TriMor do it.
