**FOR IMMEDIATE RELEASE**  
**FDA Expands the List of Dangerous Hand Sanitizers**

[Akron, OH] –Summit County Public Health wants to remind residents to check the FDA's list of hand sanitizers to avoid on the FDA's webpage at: <https://www.fda.gov/drugs/drug-safety-and-availability/fda-updates-hand-sanitizers-consumers-should-not-use>. "The FDA just expanded the list of sanitizers to avoid and we want to make Summit County residents aware they should be checking the FDA list before using or purchasing hand sanitizers to protect themselves and their families" Donna Skoda, Health Commissioner.

These sanitizers on the list contain methanol which can be very dangerous when absorbed through the skin or ingested or have insufficient level of alcohol which is the ingredient that sanitizes the hands. Therefore users are not getting effective sanitization when they utilize these subpotent products. The CDC recommends using hand sanitizer with at least 60% alcohol.

Proper hand hygiene is very important and soap and water are still just as effective in killing the COVID-19 virus.

We want remind residents to follow the recommended guidelines to reduce the spread of COVID-19:

- Conduct a daily health/symptom self-evaluation and stay at home if symptomatic.
- Maintain social distancing of at least 6 feet from non-household members.
- Consider necessary travel only.
- Follow good hygiene standards, including:
  - Wash hands frequently with soap and water for at least 20 seconds.
  - Use 60 % alcohol hand sanitizer frequently.
  - Avoid touching your face.
  - Cover coughs or sneezes (e.g., into a tissue, or elbow).
  - Symptom self-evaluation monitoring.
- Decrease in-person interactions with others.
- Limit attending gatherings of any number.
- Seek medical care as needed, but limit or avoid unnecessary visits to hospitals, nursing homes, and residential care facilities to see others as much as possible.
- It is very important to remember if you have had a COVID-19 test and are awaiting the results **please stay home** and limit outings until you have received your tests results so you do not unknowingly spread the virus.

For more information about the coronavirus situation in Summit County visit <https://www.scph.org/covid-19>.

If you have questions, call the COVID-19 Call Line (330) 926-5795. The call line is open from 9:00 a.m. to 4:00 p.m. M-F.
